

Weekly Spelling Routine (Years 2–6)

The routine that actually works: test → study → test

- Monday: quick pre-test of the whole list. Only the missed words need real work.
- Tue–Thu: study just the tricky words, a few minutes a day (spaced, not crammed).
- Friday: re-test. Then use the words in a sentence to make them stick.

For each tricky word: Look – Say – Cover – Write – Check

Tricky word	Look, say & spot the pattern / word parts	Write 1	Write 2	✓

Tip: look for the pattern, don't just memorise letters. 'night, light, fright' share -ight. 'jumped, walked, played' all end in -ed even when it sounds different.
